TECHNICAL DATA SHEET

Ecomano NF. Professional and ecologically responsible, natural heavy-duty hand cleaner.

Product Description

Ecomano NF is a unique 'heavy-duty' hand cleaner for removing heavy soiling. Uniquely, Ecomano NF is completely solvent-free and fully biodegradable.

Ecomano NF contains a coconut oil-based soap for extra cleaning power. Ecomano NF is very economical to use thanks to its extreme cleaning power.

Ecomano NF also has a unique 2-in-1 formula: cleanses and protects the skin by adding lanolin (wool fat) and glycerine.

Contains no abrasives such as sand that cause chapping, but a scrub based on ground walnut shells, which is kind to the skin.

Solution Areas

- Heavily soiled hands are often difficult to clean
- Conventional hand soaps with abrasives cause chapping and wounds
- Contamination from oil, grease, ink, soot and creosote is very difficult to remove
- Pollutants cause skin diseases
- Conventional hand cleansers with solvents aggressively degrease the skin
- Inferior hand sanitisers leave dirt and product residues behind, causing unhygienic situations while eating and drinking and the like
- Hand cleaners containing poorly biodegradable solvents should not be discharged freely to surface water.

Sustainable Solution

Ecomano NF cleans even the most heavily soiled hands. Ecomano NF protects the skin and is fully eco-friendly. Ecomano NF removes oil, grease, tar, paint, printing ink, dyes, soot, earth, soil contamination, creosote, etc.

Special Advantages

- Contains no solvents.
- Ecologically responsible.
- Protects the skin through the greasing effect of lanolin and glycerine.
- Fully biodegradable.
- Alkali- and phosphate-free.
- Contains a coconut oil-based soap for extra cleansing power.
- Economical to use due to its serious cleaning power.
- Contains no abrasives that cause chapping but a natural scrub based on ground walnut shells.
- Prevents wounds and rough hands.
- Natural, hygienic and protects your skin.
- Works very fast.
- Ecomano NF is ISEGA quality certified*.

Areas of Application

Ecomano NF can be used to clean heavily soiled hands

Remarks

No specific remarks apply.

With ISEGA quality certification, Ecomano NF performs an essential task for foodstuff and related businesses, which have to operate according to the HACCP guidelines. Pollution constitutes a 'critical control point' and is subject to continuous checks. Ecomano NF contributes to a controlled working environment and also exceeds the requirements of the BRC and IFS standards.

*An independent German research institute that issues certificates on suitability of cleaning products for the food industry.

Product Instructions

Use Ecomano NF very economically. Put a small amount in your hand. Thoroughly rub Ecomano NF into your hands and rinse with water.

Packing Material

Eco-Point International products are packed in polyethylene H.D. or metal drums. When repeat orders are being delivered, used drums which are empty and not polluted are collected free of charge for recycling or reconditioning purposes. When incinerated, polyethylene has no harmful effect on the environment.
